

Occupational Health, Safety, and Environment Policy

"Safety First"

As part of its activities and services related to vehicle inspection and registration, the Al Yalayis Vehicle Inspection and Registration Center recognizes and is aware of its responsibility towards occupational health, safety, and the environment.

In this context, the center is committed to the following:

- ✓ *Complying with legal requirements, Roads and Transport Authority (RTA) requirements, and other relevant requirements.*
- ✓ *Complying with the requirements of the international standard for environmental management systems (ISO 14001/2015) and the international standard for occupational health and safety management systems (ISO 45001/2018).*
- ✓ *Integrating occupational health, safety, and environmental requirements into the center's operations and activities.*
- ✓ *Achieving the objectives of the occupational health, safety, and environmental management system to protect employees, customers, suppliers, visitors, infrastructure, and the environment from pollution.*
- ✓ *Reducing occupational health and safety risks and environmental impacts to maintain a safe working environment.*
- ✓ *Safe waste management to prevent pollution and maintain a sustainable environment.*
- ✓ *Continuously improve the performance of the occupational health, safety, and environmental management system to prevent illness, reduce injuries, and promote sustainable environmental performance.*
- ✓ *Consult and engage employees on identifying occupational health, safety, and environmental issues, assessing and addressing environmental risks and impacts, and capitalizing on available opportunities.*
